我们的城市生活：共同的未来

三十余年的大规模快速城镇化以前所未有的方式改变了中国的面貌。如果说在不久前，关于中国城镇化的讨论还集中在形式与形态中，那么在今天，它已明显地转向了社会与人的生活，转向了新的技术所支持的可能性。面对日益增长的环境资源、公共健康与社会治理的新需求，人们越来越多地认识到，城镇化的问题实际上是我们未来的生活方式的问题。我们的城市生活将引导我们城市形态的演进，也将反映过来影响我们自身的演进。

中国对当代城市生活与近期末来城镇化模式的研讨在某种程度上是一场全球研讨的缩影。在今天，一方面新兴的技术及其引发的对传统生产生活方式的替代正蕴育着一场未来城市生活方式的巨大变革；另一方面，文明之初以来聚居于共享的建成环境的基本矛盾要素从未远离我们而去，甚至变得更为突出。在联合国发展署的官方网站上，“我们现在的生活——设计更繁荣与更公平的城市生活”一度是长期置顶的头条标题。人们普遍的共识是，这绝非出自理想主义的心血来潮，而是源于人本主义的深思熟虑。日新月异的新技术与数字经济确实在表象上吹响了划时代的号角，但在文明的深层中，我们必须面对的脆弱与责任并未改变。我们有充分的理由对新的技术潜力充满乐观，但我们也有充分的理由时刻提醒自己城市做为人们相助相依、相识相长的共同港湾的本质不会改变。而构成这一共同港湾的建筑当然会持续为我们每个人的生活做出贡献，不过绝不是做为装点浮华的锦上之花，而是做为温暖生命的雪中之炭。

在这一极其特殊的年头我们迎来了由中国建筑学会、慕尼黑博览集团和中联慕尼（北京）国际会展有限公司共同组织的 CADE 建筑设计博览会 2020（北京）。这一博览会能够按计划如期举行，本身就具有着非同寻常的意义。它向全球的建筑界传递了一个强有力的积极信号，一个关于国际合作，关于共同的韧性与决心的信号。而此次 CADE 建筑设计博览会的主题也无疑是一种提振信心的呼吁，它融入主要的展监板块之中，从中国建筑的最新实践案例展示，到对城市未来发展的多维探索，到对材料可能性的深度发掘。当然，还有被广为期待的、集结了中国建筑与城市研究重要头脑的 2020BCC 国际建筑科技大会即将带给人们的丰富灵感。

我们对每一个通过共享的城市生活和共同的城市未来进行建筑研讨的机会深感振奋与激动。特别是在这样一个注定将被载入人类史册的艰难年头的最后一季度，能够看到 CADE 建筑设计博览会继续完成其对中国当代建筑与国际建筑行业所承载的使命是令人欣慰的。筚路蓝缕、披荆斩棘，CADE 建筑设计博览会终于再次让来自建筑学界与业界的人士济济一堂、共谋大计是学术共同体的努力成果，也是行业共同体的努力成果。它向我们表明，在所有人的共同努力下，建筑终将找到解决之道，我们城市的未来也终将找到解决之道。

Our Urban Life: The Way We Will Live

Over 3 decades of Chinese urbanisation has changed China like never before. If the centre of Chinese urbanisation used to be urban morphology, it is shifting towards sociology and anthropology, along with the emerging technologies now. With the growing challenges over the environment, public health and social equality, people are approaching urbanisation more and more as a topic of the way by which we will live. Our urban life will continue to shape and reshape ourselves, as well as our cities.

The Chinese rethinking of our current urban life and its emerging forms in the near future resonates with a global debate. While technologies and life styles are evolving towards a major overhaul of traditional urban life, the essential elements of living together in a collectively built environment have never left us. On the United Nations Development Programme website, the frontpage headline is given to The Way We Live Now: Design for a prosperous and just urban life. It is widely accepted that this call is not a tentative motion for the ideals, but a sustained campaign for the fundamentals. Cutting-edge techs and digital economies may be beacons of a dawning new age, yet under the hood, our vulnerability and responsibility would remain. Being reasonably optimistic about the new potentials, we must be aware that our cities remain harbours in which we protect each other and inspire each other. Architecture can certainly do more to improve our way of life today, not through spectacles, but through necessities, better necessities.

It is in this very special year that we envisage CADE2020 co-sponsored by Architectural Society of China, Messe München GmbH and MMU BAU Fenestration Co., Ltd. BAU. The importance of the fact that the exhibition takes place as planned is not to be underestimated. It is a powerful message of international collaboration, of the resilience and resolute shared by a global community. The optimism embedded in the topic of CADE2020 sends out uplifting calls, perfectly reflected in the exhibition sections: Best Practice in China, The Future of Our Cities, Potentials of Materials, as well as in the highly anticipated BAU Congress China, featuring leading minds of Chinese architecture and urban studies.

We are always thrilled by and feel grateful to every opportunity of investigating architecture through our shared urban life, and our shared urban future, particularly so getting close to the end of this difficult year that will surely bare a deep mark in history. It is certainly rewarding to see CADE continues to perform its sound role in Chinese and international architecture, bringing the academia, the profession and the industry together against all odds. Together, architecture finds a way. Together, our urban future finds a way.
